

5,000 Golden Eggs

A Secure Poultry Investment

<https://5kge.com> | 0125

A close-up photograph of a hand holding a single brown egg, positioned above a tray filled with many other brown eggs. The background is dark and out of focus, emphasizing the eggs and the hand. The text is overlaid on the left side of the image.

Mission Statement

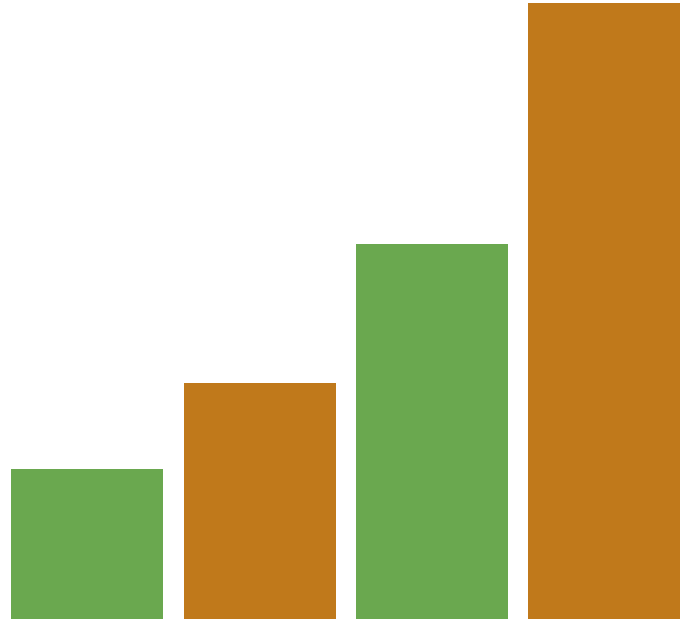

To produce high quality eggs while prioritizing animal welfare, environmental sustainability and customer satisfaction.

The Opportunity

Nigeria's poultry industry offers steady returns due to high demand for poultry products and growing urbanization.

The market potential, combined with the need for reliable food sources, makes it a secure and scalable investment opportunity.

Poultry Planning

The factors to consider for optimal egg production include;

- Source of Birds
- Housing System
- Feed and Feeding System
- Health Management
- Water System
- Marketing
- Scientific Management

Source of Birds

Cage Housing

Feed and Feeding

Basic Poultry Economics

	₦
A FIXED COST	30,000,000
B VARIABLE COST	45,000,000
C EST. SHARED PROFIT	21,250,000

Invest a portion of the ₦45m needed by the stipulated timeline and earn a proportional share of the estimated profit.

For example, investing 10% of ₦45m (₦4.5m) will earn you 10% of the ₦21.25m profit (₦2.125m).

Note that all amounts are near estimates.

Investment Returns

*Estimated Return on Investment for 10% investment, **ROI is about 47.2%.***

A single active egg production season is estimated to last about 18 months.

Why Now?

Nigeria is undoubtedly the largest poultry market in Africa, with demand for eggs and chicken outpacing current supply and creating a prime opportunity for growth.

5000 Golden Eggs (5KGE), presents a great and rare opportunity to profit of this certain growth potential.
